## Chairman's Foreword

Looking back, this has been a very interesting year for the Chamber. Key milestones have included the addition to the Board of Richard Swart and Peter Maila, the formation of the Executive Committee, the creation and work of the Awards Committee, which has been responsible for making tonight's event happen, and the formation of a number of other Committees whose work is just beginning.

The membership has grown by 25% in the past year and registered users have gone up 20% (larger base). This increased engagement has supported re-energised Chamber events and the development of the Business Hub. The Business Hub will service three key markets – British companies wanting to invest in South Africa, South African companies wanting to be involved in offshore markets and UK based South African linked businesses and members generating business from a UK base.

Our Trade focused business – Transact SA is working on its first trade missions to SA and from SA, focusing on agriculture and agritech. Our Business Hub is addressing large businesses' interests in SA, creating "solutions" services for smaller businesses, introducing members to members and enabling other contacts to foster members' successes. The Chamber is working on a project to "invest" in SA university business graduates learning to run successful farms.

Following a year of consolidation and restructuring, the Chamber is focused on future sustainable growth. To achieve this, the Chamber will evolve from only pro bono volunteers to employing a few dedicated staff; a major milestone for the Chamber.

GDPR is a current focus and we encourage opt-in responses to mailings going out over the next couple of weeks.

Over the next few months The Chamber will be holding many interesting events including Summer Drinks on 6th July at the residence of the High Commissioner in Kensington, a cocktail evening with the SA Rugby Sevens, breakfast with Nelson Mandela's prison warden, dinner with Mike Proctor and a property investment panel discussion.

I wish all members, prospective members and friends a great year.

Sharon Constançon  
Chairman, South African Chamber of Commerce UK

## SA Chamber's Purpose and Interests

The purpose of the Chamber is to provide business support to members, prospective members, UK and SA, Exporters and Importers.

The secondary purpose is to support the investment and land projects of the President of South Africa. These two projects will be supported in the following ways:-

- Supporting UK business to handle the complexities of inbound investment into South Africa by making the process understandable, smooth and achievable
- We aim to work with Universities and farmers in South Africa to offer a mentorship and internship program to business students to learn the industry specifics required to run a successful and sustainable farming business.

The business support services range from helping individuals, SMEs and new businesses to handle the transition from one country to the other in a seamless, effective manner. We will provide information, solutions, introductions and where possible get members to support members.

Other value added services will include many events a month ranging through the year from cocktails to presentations, seminars, talks, debates, roundtables held either at breakfast, lunch or evening times. These events provide two purposes – information transfer, learning about both countries and networking for business and personal benefit. Most events are run by the Chamber but on occasions we partner with other related third parties.

We are working towards supporting a joined up South African community in the UK that is together for shared benefits without age, political or racial divides – a true Rainbow Community.

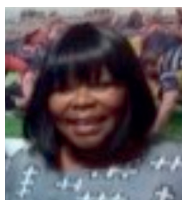

We work together for the passion of wanting to give back to South Africa in a way that benefits individuals directly.

### Master of Ceremonies

#### Brand SA – Pumela Salela

Pumela Salela is the Country Head for the United Kingdom (UK) under Brand South Africa, the custodian of the South Africa Country Brand. Her role is to market South Africa in the UK, attract foreign direct investment (FDI) into South Africa, mobilise Global South Africans (GSA) abroad and to manage the brand reputation of South Africa. Prior to serving in this role (amongst many others) Pumela was the Chief Director for Economic Policy Development and Planning at the Department of Economic Development in South Africa.

### President of the Chamber

#### Her Excellency, High Commissioner - Tembi Tambo

Nomatemba, known as Tembi, is the daughter of legendary anti-apartheid politician Oliver Reginald Tambo and has served as the head of the Tambo Foundation. She has previously served as the South African ambassador in Rome.

The High Commissioner will be sharing with us her views on whether President Cyril Ramaphosa is fit for the role and how he might handle the complexities of next year's elections.

### Keynote Speaker

#### Sir Nicholas Stadlen

Sir Nicholas Stadlen, UK High Court Judge now retired, has been involved in many high-profile cases. He presided over the 12-year Bank of England case where he completed the longest speech in legal history, for which he has become famous.

Nick will share with us what really happened behind the scenes of that trial of the 10, now prominent South Africans, and particularly the lessons we can learn today, because of what they stood for then. Tickets will be raffled to attend a private viewing in July of the film he has made on the 10 Rivonia Trialists.

### Singers

Simon Shibambu studied vocal arts at Tshwane University of Technology and vocal performance at the Royal College of Music with Graeme Broadbent, as an Association Board of the Royal Schools of Music scholar. He holds an International Opera Awards Bursary.

### Pianist
